

bolt that drops into a bracket secured into wall. Thus, main door will not open because of bar door behind it, and cannot kick in.

CHAIN LOCKS. Add these inside house entry doors. Home improvement stores have parts so you can make them any length, with heavy duty bracket and hook fixtures to join wall and door.

DECORATIVE WROUGHT IRON over windows in doors. Because out of fashion, can be found free or cheap at recycle center. For direct on the windows, try reflective and one-way mirror foil. In or out, vinyl sunscreen looks dark from outside, yet from inside house you can see clearly through it. Privacy screen and vinyl sheets.

MOTION LIGHTS, SENSORS, ALARMS. Use a mix of electrical and battery operated. Try **WIRELESS DOORBELLS** than chime an alert to you anywhere in house or away from home, when anyone approaches any exterior door - front or rear or side. **SECURITY CAMERAS.** Wired to computer or video recorder, and wireless with recording. See motion sensor sprinkler below.

FAKE DECALS FOR SECURITY MANAGEMENT.

Fake signs, notices, decals attached to doors and windows have same effect as the real deal of paying for a monthly service - they deter criminals who do not want to risk getting caught. These decals cost about a dime on web at online stores like Ebay.

WASP SPRAY shoots about 30 feet a hard stream of eye and skin burning liquid. Good to handy behind front door and in garage as can defend against an attacker from a distance and continue spritzing as they run away.

RAT TRAPS, large or steel ones with pincers, at places where thugs jump over at gate or low fence. Add no food to avoid birds. Pets and kids cannot play here since when released the traps provide a skin breaking whack, pincers enter muscles, nails and tacks cause tetanus.

Besides animal traps, think **PLANTS** that prick, sting, stab, and otherwise hurtful.

XMAS GLOBES, the shiny mirror finish ones, hung out of reach near entryways gives impression of someone menacingly looking back, namely the unwelcome guest. Same with small convex mirrors placed around house and reflecting outward so thieves can get a glimpse of themselves.

AUTOMATIC SPRINKLERS - after normal use, use a motion sensor to set them to shoot water into air when anyone approaches at night inside the yard.

HERO FIGURES like spiderman, hulk, and other justice exacting toys, made of plastic or plaster in the yard, out of the way yet visible from gate, have a stopping effect. They remind criminals of certain retribution. Joker eyes found on masks where the eyes seem to watch and move with the viewer have a security use on porch, patio, above garage door, even nailed to trees. Even a glossy photo or postcard of a police van will give pause!

TOY RIFLES laid a little ways from and pointed at gate or hung as a fixture in open garage door can act as a warning. Most folk may see them as cute, while thugs see them as scary suggesting harm will come to themselves. Same with toy handcuffs.
